

Conference Task Force to plan for upcoming conferences. The conference theme is ***Systemic Therapy, Research, and Education in an Age of Technology and Artificial Intelligence.***

This conference will be held virtually, with asynchronous content June 2 - 5, and synchronous interactive sessions June 6 - 7. The Conference Task Force will work with Dr. Wonyoung Cho, the 2025 Conference Chair, to:

1. Develop and implement a structure and schedule for the conference including synchronous and asynchronous workshops and plenaries.
2. Identify and invite speakers for the plenaries
3. Make decisions about interest groups and brief presentations
4. Create a budget and decide on a fee structure with input from AFTA Central Office Operations Director and the Leadership Committee
5. Identify needs and interests of membership
6. Recruit other AFTA members to work on needs identified by the Task Force
7. Invite colleagues from other Family Therapy and related fields to the conference for a world networking meeting
8. Communicate with the Board and general membership about the upcoming planned events
9. Develop and implement a plan to advertise the Conference to a broad audience in order to generate excitement and curiosity

This Task Force will meet throughout the year with meetings scheduled based on members' availability and tasks to be undertaken. It is anticipated that much of the work preparing for the conference will happen between meetings.
